

Juveria Mohammed Etemad

CYBERSECURITY & AI ENGINEER

 (+91) 9381584941 (tel:+919381584941) |  juveriamete@gmail.com (mailto:juveriamete@gmail.com) |

 Titulargeek1 (<https://github.com/Titulargeek1>) |  Juveria (<https://www.linkedin.com/in/Juveria>)

SUMMARY

B.Tech CSE graduate with hands-on experience in cybersecurity, deep learning, data visualization, and frontend development. Skilled in building prototypes, conducting simulations, and presenting projects at hackathons and expos including Smart India Hackathon 2025. Strong communication and documentation abilities, with leadership experience in organizing national-level tech fests.

EDUCATION

B.Tech in Computer Science & Engineering **Lords Institute of Engineering & Technology** (<https://www.lords.ac.in/>)
CGPA - 8.0 | Graduated May 2026

SKILLS & TOOLS

Cybersecurity	IDS, Splunk SOC, XGBoost, SMOTE, SHAP, Linux (Ubuntu, Kali basics), Shell scripting
Programming	Python, SQL, R, JavaScript (ES6+)
Frontend Development	HTML5, CSS3, Bootstrap, responsive design
AI/ML & Deep Learning	TensorFlow, Keras, MobileNetV2, Scikit-learn, FastAPI, Flask, Docker, OpenCV, Pillow, NumPy, Pandas, Matplotlib
Data Visualization	Tableau, PowerBI, Excel
Collaboration & Documentation	GitHub, Canva, Google Docs, Google Drive, MS Office Suite
Tools & Platforms	VS Code, Jupyter Notebook, Anaconda Navigator, Windows OS

EXPERIENCE

Cybersecurity Intern – Pantech ProEd	Oct–Nov 2025, 3 months
- Domain: Cybersecurity, Machine Learning for IDS - Tech/Tools: Python, CICIDS-2017 dataset, SMOTE, RUS, ROS, SVM (RBF kernel) - Skills Applied: Data preprocessing, class imbalance handling, ML model training, evaluation - Outcome: Built intrusion detection models achieving 99.63% accuracy, strengthening expertise in ML-based security solutions.	
Mobile App Development Trainee – Enoch Tech	Mar–Apr 2026, 2 months
- Domain: Mobile App Development, UI/UX - Tech/Tools: React Native, Expo, AsyncStorage, JavaScript	

- Skills Applied: Mobile UI design, state management, prototype deployment
- Outcome: Built Virtual Wardrobe Manager & Outfit Planner app, enabling outfit uploads, categorization, and wardrobe planning; gained hands-on experience in mobile development workflows.

PROJECTS

CYBERSECURITY PROJECTS

Imbalance-Aware Explainable IDS (Major Project – 8th Sem)

2026

- Domain: Cybersecurity, Intrusion Detection
- Tech Stack: Python, XGBoost, SMOTE, SHAP, Splunk SOC, VS Code
- Skills Applied: ML model building, class imbalance handling, explainable AI, SOC integration
- Outcome: Achieved 98.7% accuracy with interpretable IDS model, integrated into Splunk SOC environment.

Anatomy of Phishing (Simulation – 4th Sem)

2024

- Domain: Cybersecurity, Attack Simulation
- Tech Stack: Linux (Ubuntu), Shell scripting, Python, Jupyter notebook
- Skills Applied: Security testing, scripting, vulnerability analysis
- Outcome: Simulated phishing attacks across six platforms, demonstrated vulnerabilities and defense strategies.

DEEP LEARNING PROJECTS

Fresh Guard Vision (DL Project)

2026

- Domain: Deep Learning, Computer Vision
- Tech Stack: TensorFlow/Keras, Python, MobileNetV2, FastAPI, Flask, Pandas, NumPy, OpenCV, Matplotlib
- Skills Applied: Image preprocessing, Docker deployment, heuristic confidence thresholding
- Outcome: Built and trained CNN models for freshness detection in fruits/vegetables, achieving high classification accuracy.

WEB/APP DEVELOPMENT PROJECTS

Career Counseling Portal (Smart India Hackathon)

2025

- Domain: Web Development, Career Guidance
- Tech Stack: HTML5, CSS3, JavaScript, localStorage, MySQL
- Skills Applied: Full-stack development, database integration, UI/UX design
- Outcome: Developed portal for career guidance with student login and counseling features; presented at SIH 2025.

Virtual Wardrobe Manager & Outfit Planner

2026

- Domain: Mobile App Development, Lifestyle Tech
- Tech Stack: React Native, Expo, AsyncStorage, JavaScript, GitHub
- Skills Applied: Mobile UI/UX design, state management, prototype deployment
- Outcome: Functional mobile app enabling outfit uploads, categorization, and wardrobe planning.

Static College Chatbot Prototype

2024

- Domain: Web Development, Conversational UI
- Tech Stack: HTML5, CSS3, JavaScript
- Skills Applied: Front-end scripting, event handling, interactive design

- Outcome: FAQ-based chatbot for admissions, placements, and exam queries; groundwork for future dynamic chatbot integration.

CERTIFICATIONS

Claude 101 – Anthropic (<https://verify.skilljar.com/c/2kcb5qf532zh>)

Jun 2026

CTS Jan 26 Badge – Explore Google Cloud (<https://www.credly.com/earner/earned/badge/f2d91ffc-1f14-4d83-93bb-929609ffe32e>)

Feb 2026

AI-Enabled Applications for Customer Service – IBM SkillsBuild

(<https://www.credly.com/earner/earned/badge/480bd0b5-20c3-4f8c-992b-de583be39e97>)

Dec 2025

Artificial Intelligence Fundamentals – IBM SkillsBuild (<https://www.credly.com/earner/earned/badge/d403c314-3aaa-4723-889a-9bb15dd6f88f>)

Dec 2025

Applied Machine Learning with Python

Oct 2025

PowerBI Dashboard Using T20 World Cup Data – Coding Ninjas

Sep 2025

AI in Marketing – NPTEL, IIT Roorkee

Jan–Apr 2025 (12-week course)

LangChain & RAG Workshop – Sanketika TechFest

Apr 2025 (2 days)

Introduction to Data Analytics – Simplilearn SkillUp

Jul 2024

Data Analytics & Visualization – Skill Development Programme

Apr 2024
